The stories of those who risk their lives to protect and tell the secrets of long lost ships ... sent chills down my spine. Few can compare to the tenacity that Dave Trotter has in locating and identifying many of the most significant shipwrecks in the Great Lakes. *Shipwreck Hunter* details those successes and the terrible cost explorers sometimes pay to be the first.

—Richie Kohler, *Cohost of Deep Sea Detectives & Principal in Shadow Divers*

A page-turning, thrilling, and informative look into the often dangerous, competitive world of the legendary Great Lakes wreck hunters and the maritime history behind their dives.

The reader will be left with lasting impressions of the unmitigating passions and the raw, unforgiving dangers of deep shipwreck quests, discoveries, and explorations in the Great Lakes.....

—Cris Kohl, *Great Lakes diver & author*

Shipwreck Hunter is Volgenau's spellbinding book of two dramatic stories: The relentless pursuit by David Trotter and his team to discover, explore, and solve the mysteries of missing, deep-water, historical Great Lakes shipwrecks and the story of Danny Fader's near-death accident and redemption in pursuit of this high-risk adventure.
